REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: no prior art has been found or presented that either teaches or fairly suggests the method for making a rubber composition comprising: forming a mixture by combining an uncured or partially cured elastomeric material, a curing agent that reacts with the elastomeric material, and a reactive oligomer; heating the mixture at a temperature and for a time sufficient to effect vulcanization of the elastomeric material and polymerization of the reactive oligomer, wherein mechanical energy is applied to mix the mixture during the heating step; wherein the reactive oligomer comprises a compound that polymerizes to form a thermoplastic polymer matrix of the composition, as claimed herein. The restriction requirement of 21 February 2007 is hereby expressly withdrawn. All non-elected species have been searched and the claims are rejoined in accordance with MPEP 821.04. Since there are no other outstanding issues with respect to the enablement or clarity of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nathan M. Nutter whose telephone number is 571-272-1076. The examiner can normally be reached on 9:30 a.m.-6:00 p.m..
